# ABOUT THE ERRATA

In 2023 Book 7 *The Rune Forge* was released in a new style that had a two column layout instead of one. Prior to this book all releases for D100 Dungeon books had a traditional book layout. This prompted the other books in the series to be updated to the new style. Now all book updates and new titles for D100 Dungeon are being released with the two column layout. If your book is in the older style format and was published in 2022 or earlier, you will need to refer to the "D100 Dungeon Errata v1.6" file from: <https://www.mk-games.co.uk/downloads>. However, all books published from 2023 onwards, use this errata, so please read on.

## PRINTED BOOKS

The errata file has been compiled with the known issues found in the printed books for D100 Dungeon. Note that when the errata file is updated to a new version, the alterations have already been updated to the print on demand files. This means that when an order is placed for a print on demand book, the printed book you receive has already had any issues corrected and you will not need to use the errata. Note also that the PDFs of the printed books are automatically updated with each new version of this errata file too.

## HOW TO USE THE ERRATA

Each entry in the errata gives you the version number and/or printing date of the product that needs updating. Check your products to see if they need the update. The first part of the information is a table detailing the update that needs to be applied. The updated part that needs to be modified may be shown in **red**. The second part has stickers/images you can print out.

It is recommended you carefully make the adjustments in your books with a black pen. However, you might prefer to print labels to attach over the text/tables. Print the page with the stickers to a high quality full size label sheet and print actual size to make sure that the labels fit. You will need to cut just inside the dotted lines. Note: some labels seem larger than is necessary, and have blank areas; this is deliberate and is intended to cover up text in the product that is no longer needed.

Please note: Not all amendments have been marked in this errata. This may be because they are typos or alignment issues that do not affect the rules or how you play the game. However, we have not ignored them and they are corrected in the next print run and digital update.

## ERRATA FOR BOOK 8 THE FORGOTTEN TOME OF CURIOUS RULES V1.1

Page 25: The Herbalism Book - Mighty Drink should provide a bonus of +2 Dmg and Mighty Flask should provide a bonus of +3 Dmg.
